## Safety is NO Accident. It is Everybody's Responsibility.

Whitacre Greer is committed to maintaining a safe and healthy work environment for employees, contractors and visitors. It is our right and responsibility to expect that at the end of the day we will be returning home without having suffered a work-related injury or illness. In order to achieve this each employee, contractor, or visitor is expected to obey safety rules and exercise caution in all work activities. Employees must immediately report any unsafe condition to the appropriate supervisor or other member of management.

We believe that safety can only be achieved through teamwork. Effective safety requires the active participation of everyone. Although it is the responsibility of supervision, staff, and management to ensure a workplace free of recognized hazards, ultimately it is up to each of us to see that safe practices are maintained.

Only by working together can we ensure that each of us will go home without suffering a work-related injury or illness. If you have any questions or concerns regarding safety or safe working conditions do not hesitate to contact John Miller.
