WHITACRE GREER

FIREBRICK

Whitacre Greer —
Pioneers in clay products

Gather
round
the fire.

Isn't it time to enjoy your new wood-burning stove, fire pit, or fireplace?

Today in its fifth generation, **Whitacre Greer specializes in dry-pressed firebrick for residential and industrial fireplaces as well as wood-burning stoves.** Made in America and delivered throughout the U.S. and Canada, our firebrick is proven suitable for temperatures of up to 2,000 degrees Fahrenheit and features uniform dimensions for simple installation.

Peace of mind.

Whitacre Greer vacuum, dry-pressed firebrick comply with all applicable industry standards. **Learn more about peace of mind from Whitacre Greer at wgpaver.com.**

FIREBRICK

Colors and Finishes

When it comes to picking a color, Whitacre Greer firebrick is available in Buff, Red and Smokey Midnight. We manufacture our dry pressed firebrick with largest dimensions intended as the face side, please let your sales representative know if you are using the unit in a different manner.

Sizes and Shapes

Whitacre Greer carries a wide selection of firebrick models with varying dimensions and weights. In addition, custom sizes are available. Whether eight-by-four or nine-by-six, we've got your size!

Ask your sales rep about custom orders in all three colors.
